### PROFILE

I am a University Systems Analyst and advanced student of Information Systems Engineering. I am seeking a job opportunity to gain experience in software development, as I have knowledge in various languages and frameworks. I would like to find a job where I can collaborate with a team, learn from them, and contribute in the best possible way.

### EXPERIENCE AND PROJECTS

#### Asociación de Rehabilitación Neurológica (AReNe)

##### Fullstack Developer | 2022

I participated in the development of an information system for AreNe that allows the organization to manage its patients, workers, areas, shifts and medical history. I carried out information gathering tasks for the subsequent system analysis and design and development tasks working with technologies such as NestJS, React, and GraphQL, among others.

#### OracleONE

##### Frontend Developer | 2022-2023

I participated in the Oracle Next Education program provided by Oracle, where I chose the frontend specialization to enhance my skills in HTML, CSS, JavaScript, and React. In addition to this, I gained knowledge in soft skills related to personal development, agile methodologies, and entrepreneurship.

#### Research Group in Operations Management and Logistics

##### Research Group Scholar | 2023

I participated in the development of a project in collaboration with the company Pecarí Implementos, where we created a simulation model to optimize the production process of vibratory compactors, using tools such as SIMIO and Excel.

### EDUCATION

#### University Analyst in Information Systems (Intermediate Title)

Universidad Tecnológica Nacional | 2018 - 2022, Concepción del Uruguay, Entre Ríos, Argentina

#### OracleONE Frontend Training

Oracle | 2022-2023, Online

#### Information Systems Engineer

Universidad Tecnológica Nacional | 2018 - Actualidad, Concepción del Uruguay, Entre Ríos, Argentina
